(BULLETIN SPECIAL WAR SERVICE.)

MUZZLING THE PRESS.

Constantinople, February 16.—An order has been issued commanding the Turkish press to refrain from publishing comments unfavorable to Russia during the war.
Nagasaki, via Shanghai, February 16.—The mobilization of the Japanese Army has been carried out methodically. It is estimated that 500,000 troops are now ready to be placed in the field without repairing the national defenses.

MARTIAL LAW

Tokio, February 16.—Martial law for the whole of Japan was proclaimed to-day.
New Chang, Sunday, February 14.—About 50 Japanese men on their way to Tien Tsin, were arrested at Tai Hibi Chou on February 12, with their wives and children and arrived here in custody. The American Consul Henry B. Miller procured the release of the women, but Viceroy Alexieff ordered their rearrest. They will transport these together with all the Japanese in Manchuria to Port Arthur.

LAND BATTLES

London, February 17.—Rumors are thick this morning that the Japs and Russian land forces are engaged in a fierce battle in Korea. No confirmation is received as yet. The Standard's correspondent at Tien Tsin says that the Chinese troops are still being moved outside the wall under secret orders. The Russian troops are mustering their forces at Yalu River. Heavy fighting is reported there.
St. Petersburg, February 17.—Russia continues to await with the utmost confidence the conflict on land that is sure to come. The confidence is firmer because the military experts recognize that the relief from the responsibility of maintaining a long line of Railway through Manchuria will greatly simplify Viceroy Alexieff's task.

LAND FIGHT AT YALU RIVER

Tokio, February 17.—A report has reached here that the Japanese Torpedo fleet reattacked the Russian fleet at Port Arthur, February 14. It is thought that one Russian ship was damaged.
Chefoo, February 17.—The British steamer Weichoff detained at Port Arthur since the beginning of hostilities arrived here today full of Japanese Refugees and reported the Russian fleet moving in the direction of Korea. A trilling engagement took place in the gulf of Pe Chi Li between rival Torpedo boats but no damage was done, it being merely an exchange of shots. Russian reinforcements are moving rapidly to the Yalu River where a great land fight is expected soon.

RUSSIA ANGRY AT UNITED STATES

St. Petersburg, February 17.—The foreign office here has very serious misgivings regarding the attitude of China. They are beginning to be fed following upon the undoubted treachery shown by the cutting of wires connecting Vladivostok with Port Arthur and the constant attacks upon the line of the Manchuria railway by force, which were well known to be under the direction of the Chinese. The American note continues to excite much anger here. I have already told you that expressions have been uttered in the highest quarters to the effect that it is quite an outrage, out of all proportion. The Brijavica Vedomosti says: The American note comes too late. Such an idea could never be tolerated by Russia.

London, February 17.—The Daily Telegraph this morning prints a long special from Shanghai giving details of the fighting at Port Arthur on February 9th. Captain Gray, of the British steamer Feeling is authority for this report which is the best account yet published here of the effects of the bombardment of Port Arthur.

Capt. Gray, said the town and dock of Port Arthur suffered seriously though the actual damage was not so great as might have been expected from the bombardment. Three shells went into East basin without causing very much harm. Another went through the side of a transport lying just outside the drydock but for some reason did not explode. In the town holes as large as fifteen feet in diameter six feet deep had been ploughed up by shells. Windows were shattered in all the houses and the coal stacked along the streets and wharves was scattered in all directions.

600 RUSSIANS FROZEN

Berlin, February 17.—The St. Petersburg correspondent of the Loglich Rundschau says that 600 Russian soldiers have been frozen to death while marching across Lake Baikal in Eastern Siberia. The correspondent adds that the temporary Railroad across the lake is not yet completed and that a large detachment of troops was sent on a 22 mile march over an ice covered lake and that it is presumed that part of the troops lost their way in a snowstorm and perished.

RUSSIAN CRUISER BLOWN UP.

St. Petersburg, February 16.—The Russian second class cruiser Boyarin was blown up by a mine on February 13 in the same manner as the Russian torpedo transport Yenisei. She had on board 197 officers and men, all of whom, it is understood, were lost. No details of the disaster has been given out.

CRUISERS FROM ARGENTINE.

St. Petersburg, February 16.—The report circulated here to-day that the Russian cruiser Boyarin was blown up last Saturday and that all of her officers and crew of 197 men were lost, is confirmed from a private source.

Yokohama, February 16.—The cruiser Nishin arrived safely in Yokohama at 9 o'clock this morning and the cruiser Kasuga at 11 o'clock. These two vessels, recently purchased from the Argentine Republic will increase materially the preponderance of the Japanese naval strength.

CONTRABAND OF WAR.

Nagasaki, February 16.—The Japanese authorities have seized United States canned provisions consigned to Port Arthur on board the steamship Coptic from San Francisco.

Paris, February 16.—A despatch to the Eclair from St. Petersburg says it is affirmed there that in a fifth bombardment of Hakodate "which has not been officially corroborated," the four Russian cruisers which took part in the engagement were driven back to Vladivostok by a storm.

EAST CLOVER BAR.

A meeting of a number of those interested in the erection of an Anglican church at East Clover Bar was held at the residence of Mr. Clarence Tomlinson on Thursday evening. It was decided to erect a building 28 x 18. Each one present promised to undertake to supply a portion of the lumber required which amounted to about thirteen logs for each one present. All of the rough lumber was subscribed in this way and also a considerable portion of the labor involved in the erection of the building.

The Rev. Mr. Floyd of Leduc was present and seemed to have his calculations pretty fine as to lumber required and labor, expense etc. It was decided to get the lumber in the ground during the present season before the close of the coming summer. Rev. Mr. Floyd's congregation expect soon to be worshipping under a roof dedicated to that purpose.

The Alberta is responsible for the statement that the Canadian Pacific Railway company will erect a \$30,000 station in Calgary and a ten thousand dollar one at Medicine Hat.
